

Safety Statement

Take care, think safe.

- **«Shymkentcement»** JSC undertakes a responsibility to endorse Safety Policy of Italcementi Group as integral part of its corporate governance. Complying with the group guideline, we here after underline the importance given by Shymkentcement to the Safety at work for all our stakeholders
- **T**he main target of our Local Safety Policy is to create safe conditions for protecting life and health of the employees, contractors in their job activities by:
 - compliance with RK legislation
 - Group standards enforcement in the sphere of Labor protection.
- **O**ur key process to implement an effective Safety Management System are:
 - carrying out regular safety inspection
 - analyzing every accidents and incidents
 - eliminating or reducing dangerous and hazardous factors, death and injury risks of the employees to the acceptable level with dedicated corrective actions
 - training everyone according to their own activity inside the plant
 - managing and overhauling the process through a Safety Committee
- **S**afety policy will be valid at each working place and for everyone entering the facilities (employees, contractors, suppliers, customers, visitors...) - All are personally responsible for a full compliance with all Safety rules existing on site in order to prevent industrial accidents and incidents – This which will be constantly monitored
- **T**he final goal of Safety Policy is to achieve Zero Accidents at the work place by everyone’s contribution. Knowing that people are key elements with respect to individual Safety it is necessary for everyone, regardless the hierarchy level, to constantly care about their own Safety and as well about the one of their colleagues.
